

MKUKUTA II: KEY PRIORITIES 2011-2015

15th September, 2011

OUTLINE

- Design Issues
- Thrust of MKUKUTA II
- Priorities

Design...Strategic shift

▣ MKUKUTA II :

- Widens scope for sources of high and sustainable growth by increasing number of goals to five;
- Creates more space for private sector participation;
- Addresses the issue of underemployment, especially in rural areas;
- Addresses macroeconomic issues holistically for consistency of various elements of the macro policy framework ;
- Embraces the concept of Drivers of growth with greater focus on agriculture;
- Strengthens the macro-micro link;

Design... Strategic Shift

- Emphasizes Quality of Human Resources and Delivery of Services;
- Emphasizes skills development for employability;
- Focuses more on implementation effectiveness by bridging the institutional gap;
- Expands scope of financing through adding innovative ways;

Main thrust of MKUKUTA II

- ***Inclusive Growth interventions***, with an explicit emphasis on:
 - Investments to raise rural productivity in line with *KILIMO KWANZA*;
 - Sustaining, deepening reforms and improving business environment; especially in agriculture;
 - Trade and trade logistics based on Tanzania's geographical location;
- **Improved Access to quality social services**

Cluster I: Key Priorities

Agriculture – *Kilimo Kwanza*

The “*drivers*” are prioritized according to impact in raising productivity and creation of decent employment (with variations per region/district depending on existing relative advantages):

1. Supportive physical infrastructure
2. Water and irrigation infrastructure,
3. Financial services and incentives to invest in agriculture
4. Knowledge and information
5. Value addition activities (agro-processing and mechanization)
6. Trade/export development services

Cluster I: Key Priorities ...

Manufacturing

The focus is on promotion of agro processing for value addition, and development of basic industry; interventions focuses on;

1. Energy/electricity,
2. Knowledge and skills,
3. Information Communication Technology (ICT),
4. Marketing interventions,
5. Financial services,
6. Legal environment and Intellectual Property Rights.

Cluster I: Key Priorities

Tourism

Ranking of “drivers” based on impact:

1. Business environment
